Premium "Pure Air" room

Stand out from
the crowd!

Give yourself a big
competitive advantage
and be one of the first
to offer this service.

- ✓ Headaches?
- ✓ Allergies?
- ✓ Insomnia?

What if you were to offer rooms with pure air?

More than 30% of people suffer from allergies and 10% from asthma. Dust, pollen, volatile organic compounds and animal allergens are just some of the causes of symptoms that range from troublesome to serious.

Guests with these complaints will definitely be interested in a room with an atmosphere that is always pleasant and healthy.

The City M air purifier **purifies the air in your rooms.**

It can also easily be installed in conference rooms and fitness areas to keep the air clean and give your guests a feeling of well-being.

With the City M, you can offer a new service which will really make a difference!

- Certified allergy-friendly by the ECARF (the European Centre for Allergy Research Foundation)
- Approved by the AHAM (Association of Home Appliance Manufacturers) because of its efficiency in removing tobacco smoke, dust and pollen.

BENEFITS: A PREMIUM SERVICE

- More restful sleep in a "Pure Air" room
- More productive meetings in a pleasant atmosphere
- A noticeable feeling of well-being
- Good health
- Suppression of unpleasant smells (cigarettes, animals, body odour, sanitary facilities)
- Cleaner rooms, which means that less cleaning is needed

FEATURES:

- The most efficient HEPA H13 and activated carbon filters on the market
- Mobile unit: Power supply 200 to 240 V
- Average air purification area: 75 m²
- Low energy consumption because of its large filter area
- Six operating speeds
- So quiet that it can even be installed inside the room
- Lightweight (15 kg) and easy to move – 329 x 703 x 338 mm in size
